

MANAFORT PRECISION THE BEVERLY BOSTON

Concrete

PROJECT
The Beverly Boston

MARKETS
Concrete

CONTRACT TYPE
Specialty Contractor

PROJECT OWNER
Related-Beal

LOCATION
Boston, MA

The Beverly Boston is a premier, mixed-use complex in the heart of Boston's Bulfinch Triangle. The building consists of 239 residential apartments, 220 hotel rooms, office space, a 220-vehicle valet parking garage, and 10,000 SF of ground-floor restaurant and retail space.

Manafort-Precision was selected to perform all concrete work required for this 484,000 SF project, including cast-in-place concrete work for foundations, slabs, and site hardscape.

The location of this building—in a bustling urban area and directly over the entrance to I-83—required extensive scheduling, coordination, and management of vehicle and pedestrian traffic. Manafort's experience working in metropolitan environments, coordinating work, and commitment to safety, ensured that all of the proper controls were planned and implemented to facilitate the safe and effective completion of our work.

Manafort self-performed all of its scope of work while also working closely with the entire project team under a very aggressive project schedule to coordinate and support a safe, successful, and on-time completion of this very challenging project.
